

STUDENTS' CREDO:

We are the Students, Blooming Flowers of SVERI's Garden of Education; each one of us is committed to reach our highest potential.

We can achieve what we have set out to achieve only by consistently demonstrating *Five Ds i.e. Dedication, Discipline, Diligence, Doing & Dependability in our behaviour.*

We value these and therefore we are:

Dedicated

We dedicate ourselves to play our role as students effectively and realize our dreams born out of expectations of our elders and our teachers from us.

Disciplined

We understand that unless we maintain discipline and have single-minded focus, we won't be able to reach our goals. Every success story in the world has one thing in common: Discipline. We demonstrate discipline in all our actions.

Diligent

Diligence helps us in taking right actions and making careful efforts as we move towards our goals.

Doers

We know that Ideas become powerful only when they are converted into actions. We want to be known as Creators, Innovators, Designers, Manufacturers, Managers and Leaders. We can't be any of these unless we are Doers too. Therefore, we not only think and generate ideas but we also act for turning them into reality.

Dependable

We are aware that our work makes us visible. We can get opportunities to work only if we become dependable. Therefore, we give ourselves targets and achieve them regularly by staying within the limits of rules and regulations. This is one way to demonstrate that we are dependable.

By adopting these Five Ds along with our basic values of Honesty and Integrity, we are able to partner with our esteemed institute in-

SVERI- Strengthening Value-based Education & Rigorous Innovations
